

“...Finding My Architect was like finding a diamond.

They listen to what clients have to say and produce solutions that are quite simply stunning. They have worked with my wife and I on two houses which have been featured in magazines and on TV.”

Highly recommended and jolly nice people.”

John and Anna Carver, Sussex, 2007, Primrose Hill, 2004

“You could not have wished for more charming and helpful people with whom to collaborate.

We met Scott Batty at the Grand Designs Exhibition. He appealed to us by his imaginative and sensitive, but down-to-earth, approach. He was clearly a good listener and a creative problem-solver.

At every stage My Architect were attentive and conscientious, and responded quickly and effectively to any changes in circumstances.”

Jon Corrall, St. Albans, 2010

“We have been very professionally supported in incorporating our wish list into a final planning application

My Architect have been great. We are demolishing and rebuilding in a difficult to access site.”

Dr and Mrs Davidson, Dartmouth, 2011

“The project kept to schedule and the finished product was handed over on time.

Throughout the project, My Architect were efficient and well organised following established practices more usually associated with larger practices. We are very pleased with the end result which meets the original brief very well. I am quite satisfied that My Architect were the right choice of architect.”

Charles Newbold, Highgate, 2010

"All the things you did for '152' are much appreciated by those living here and much admired by those who visit here."

John and Caroline Chapman, Islington, 2008

“My Architect’s approach to the design process, the presentation of their ideas and their impressive interaction with the planning authority went above and beyond our expectations.

Even at an early stage, we were impressed by their down to earth approach, professionalism and enthusiasm for our project, which was evident through the entire process. “

Asvin Hirani, Stanmore, 2011
